- TOI Volunteer

## **PROJECT**

## Greenhouse Monitoring and Controlling System Using IoT | C++ | NodeMCU [Link]

• Enhanced plant growth and yield by creating a smart system that optimizes greenhouse conditions through monitoring environmental factors and actuators maintaining ideal conditions, with real-time data, remote control, and alerts provided via a mobile арр.

## Autonomous car [Link] C++ | Arduino

• Enabled precise path following by developing an autonomous line follower robot using infrared sensors and control algorithms, resulting in a functional and efficient system for navigating predefined paths.

#### **ACHIEVEMENT**

- Completed an Internship in Python programming offered by Sayur Tech from Feb to July 2024.
- Won 1st prize in the "GENESIS'23" Tech-quiz organized by Kamaraj College of Engineering and Technology on 15th February 2023.
- Participated in a Cloud Computing workshop in the "IMAGE23", A National level symposium organized by the Knowledge institute of Technology on 21th March 2023.
- Participated in a Paper presentation on the topic of Renewable Energy in the "ELEMENT 2K22" organized by Sri Ramakrishna Engineering College On 22th September 2022.

## CERTIFICATION

- Certification of completion in Front-End Development from 11-06-2023 to 11-07-2023.
- Certification of completion in State level NSS camp from 05-02-2023 to 11-02-2023.
- Certification of completion in **Internet of Things** in January 2023.
- Attended a 12-week workshop to promote gender equality and prevent child abuse organized by Sakshi and ministry of Youth Affairs and Sports in 2023.
- Certification of completion in **Embedded System** from 19-12-2022 to 25-12-2022.
